Fire

Physical Tire Model.

Full Tire Dynamics in Real-Time

Mastering Speed and Complexity.

FTire/core - Digital Twin

FTire/core in the Office and in Real-Time.

One Tool, all Domains. A seamless Approach. Consistent. Trusted. Validated.

FTire/core - Digital Twin

Mastering Speed and Complexity.

Testbed Systems
HiL Systems

Driving Simulators

No Magic. No Formula. Just Physics.

No Reduction. No Conversion. Just FTire.

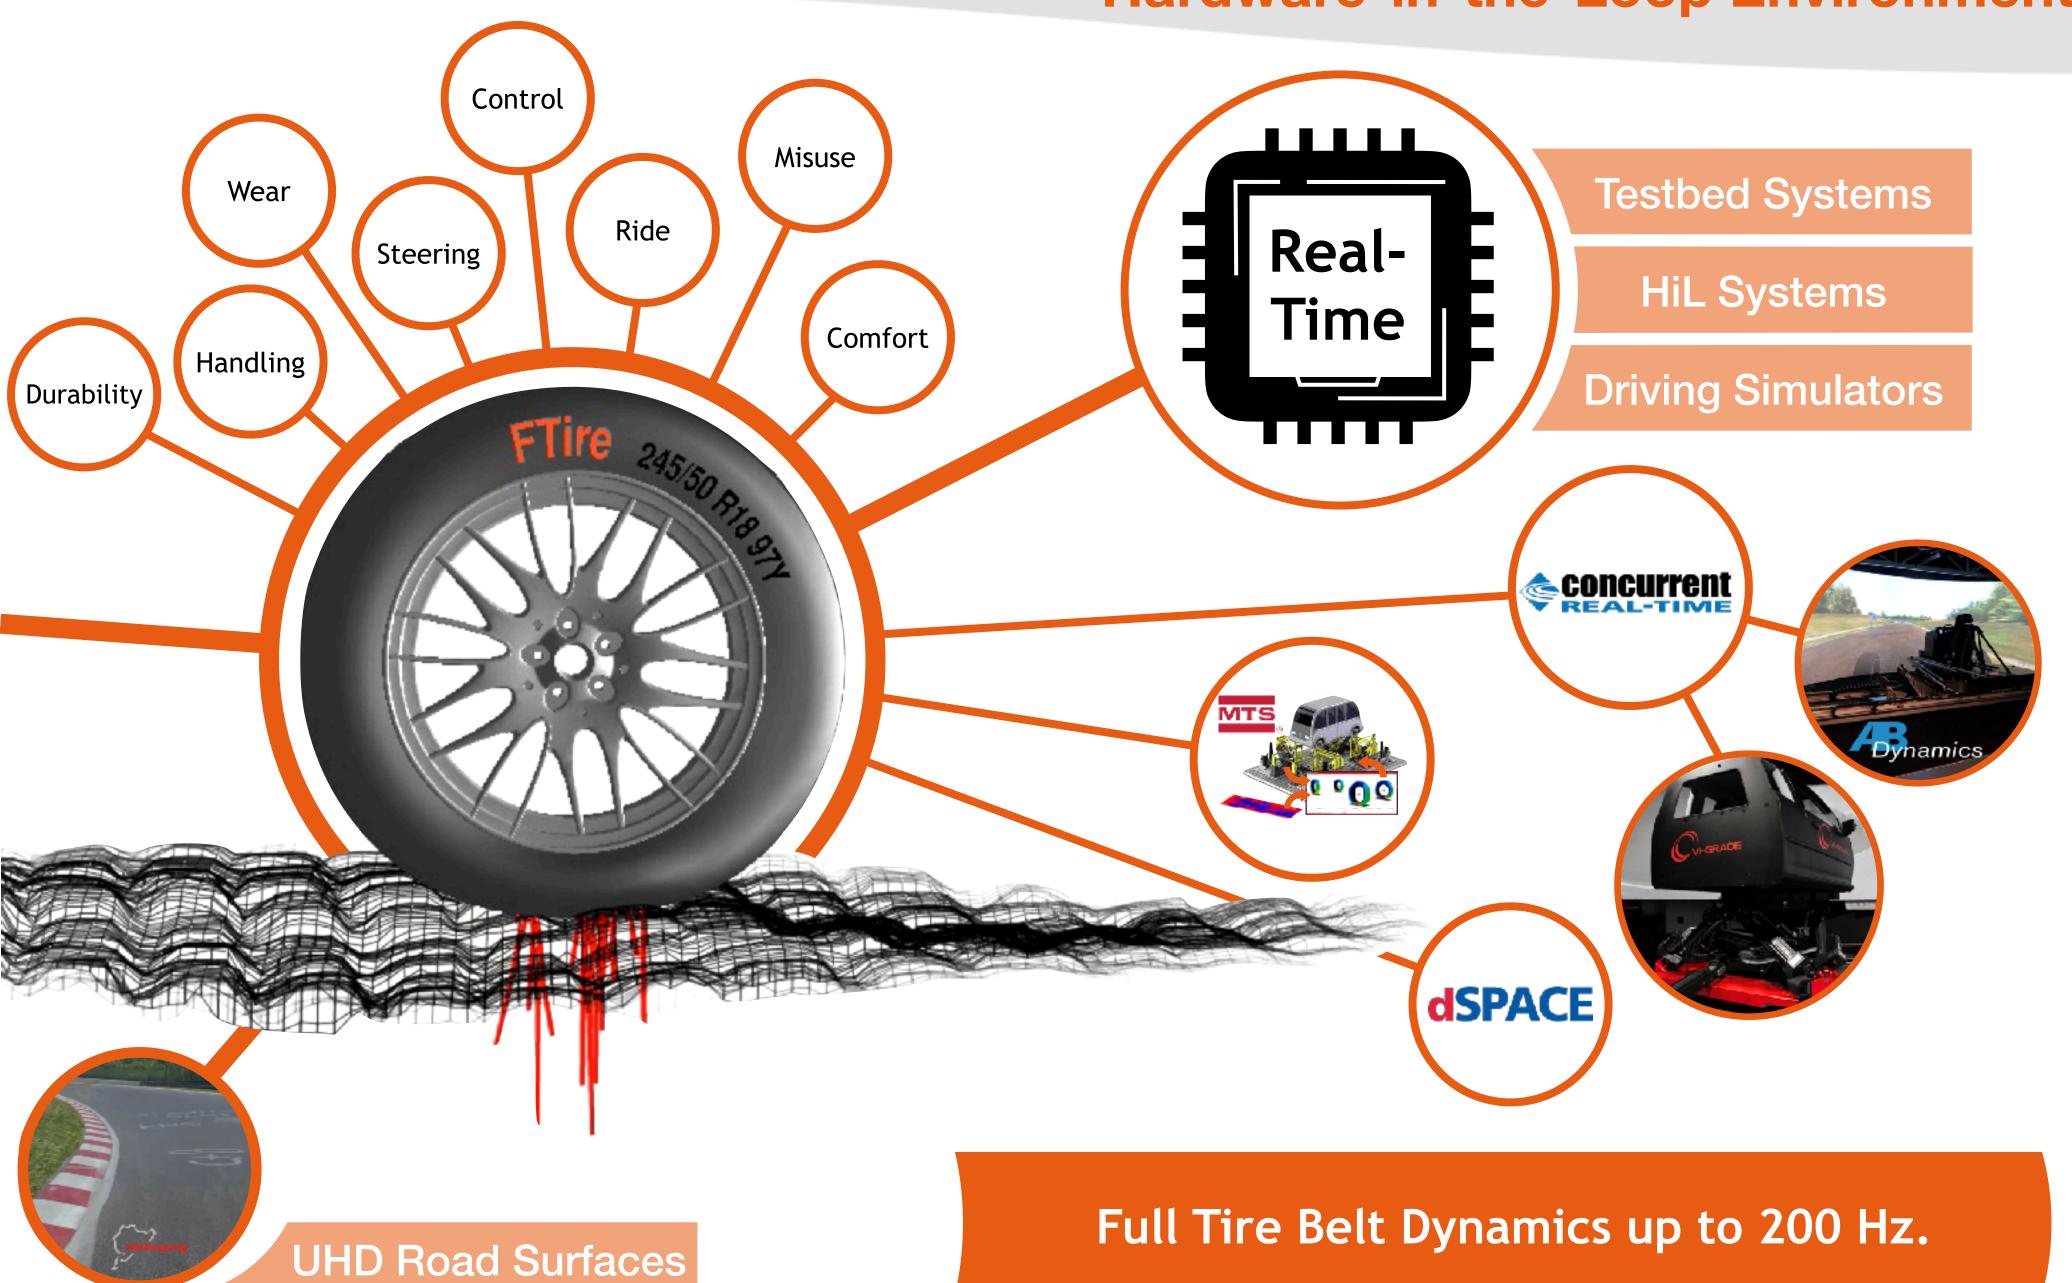

Use the identical virtual Tire from trusted and validated Office Applications in Real-Time Environments.

No Smoothing. No Tandem-Egg. Just a high Resolution Surface.

UHD Road Surfaces

FTire/core - Digital Twin

Hardware-in-the-Loop Environments.

FTire/core: Full Tire Dynamics up to 200 Hz in Real-Time

FTire/core: Full Tire Dynamics in Real-Time.
